Kamil Efe Arslan

Civil Engineer, MSc | PhD Student, Department of Civil Engineering

İzmir • kamilefe.arslan.phd@gmail.com • linkedin.com/in/kamilefearslan

PROFESSIONAL SUMMARY

I am a PhD student in the Department of Civil Engineering at İzmir Demokrasi University, where I graduated ranked first in my department and completed my Master's degree with a GPA of 4.00. Through my thesis research and my role as a TÜBİTAK Project Director, I gained intermediate proficiency in MATLAB and SAP2000, and I have presented work on solving structural optimization problems with metaheuristic algorithms at an international conference. During my internships, I gained practical experience in structural modeling using ideCAD and took part in quantity takeoff and cost estimation.

EDUCATION

İzmir Demokrasi University İzmir

Ph.D. in Civil Engineering 2026 - Present

İzmir Demokrasi University İzmir

M.Sc. in Civil Engineering (GPA: 4.00) 2024 - 2026

- Thesis Topic: An Effective Approach for Damage Detection in Truss Structures Using Modal Strain Energy and Tactical Flight Optimization.

İzmir Demokrasi University İzmir

B.Sc. in Civil Engineering (GPA: 2.88) 2020 - 2024

- Thesis Topic: Creating a Prediction Model for Occupational Accidents in the Ready-Mixed Concrete Sector Using Multi-Layer Artificial Neural Networks.
- Graduated first in the department's undergraduate program.

PUBLICATIONS

Arslan, K.E. and Mortazavi, A. (2025). Solving structural optimization problems using marathon runner algorithm. *Karadeniz Teknik Üniversitesi 4th International Civil Engineering and Architecture Conference (ICEARC'25)*. ISBN: 978-605-81854-9-4.

PROJECT EXPERIENCE

TÜBİTAK 2209-A İzmir

Project Director 2023 - 2024

- Project Topic: "Creating a Prediction Model for Occupational Accidents in the Ready-Mixed Concrete Sector Using Multi-Layer Artificial Neural Networks".
- Conducted data analysis and modeling studies using MATLAB within the scope of the project.
- Planned the project timeline and executed project coordination activities.
- Managed technical and administrative communications with TÜBİTAK regarding the project processes.

WORK EXPERIENCE

Karabağlar Municipality İzmir

Intern July 2023 - August 2023

- Participated as an observer in quantity takeoff and progress payment preparations.
- Performed structural modeling using the ideCAD program.
- Monitored construction processes on site alongside the site engineer.

Eski İzmir Yapı Denetim Ltd. Şti. İzmir

Intern July 2022 - August 2022

- Monitored the compliance of on-site construction processes with relevant codes and technical requirements.
- Observed structural construction work on site.
- Took part as an observer in quality control and regulatory compliance checks.

SKILLS AND COMPETENCIES

- Structural Analysis and Modeling: SAP2000, ideCAD
- Engineering Computation and Data Analysis: MATLAB
- Computer-Aided Design: AutoCAD
- Project Planning and Scheduling: MS Project (Beginner Level)
- Research: Structural Optimization with Metaheuristic Algorithms, TÜBİTAK Project Management, Technical Reporting
- Foreign Language: English (B2)
- Driving License: Class B (Active)

COURSES AND CERTIFICATIONS

- Introduction to SAP2000 Training - Chamber of Civil Engineers (IMO)
- AutoCAD Training - Chamber of Civil Engineers (IMO)
- International Engineering Symposium 2024 (IES24) Certificate of Participation

LEADERSHIP AND VOLUNTEER EXPERIENCE

İzmir Demokrasi University İzmir

Faculty Student Representative 2022 - 2024

- Acted as a bridge between the faculty administration and students, which strengthened my communication skills.
